

BUGATTI

**MULTI-SKILLED BODYWORK PAINTER
AUTOMOTIVE TECHNICIAN (M/F/D) — BG-P/P**

Contract : CDI (permanent contract)

Working hours: Afternoon

Location : Molsheim, France

REQUIREMENTS

- Diploma in bodywork and automotive painting
- More than 3 years of experience in body painting in a car dealership

SKILLS

- Professional knowledge of body component assembly and fitting techniques
- Mastery of paint application techniques
- Knowledge of car mechanics and basic technical English would be a plus

TASKS

- Ensure availability and correctness of needed parts for assembly
- Pre-assemble body parts (door, front bonnet, rear bonnet, front wing, rear wing, rear bumper, front spoiler, medallion)
- Prepare and fit windows
- Assemble the various pre-assembled components using the assembly plan, taking into account clearances, alignments and tightening torques
- Fit and install the vehicle's electrical and electronic systems
- Check correct function of various components (e.g. mirrors, lights, windows, etc.)
- Adjust sprinklers and windscreen washers and check watertightness
- Deal with defects by providing support and technical assistance to the relevant departments
- Resolve identified defects during the vehicle audit (polished/glossy, spot repair, appearance defects, etc.)
- Apply 'customer film' as well as various decorative elements or monograms to vehicles
- Prepare the vehicle for the audit (remove protective films, wash the exterior, polish, repair any damaged parts, clean the interior, etc.)
- Monitor and validate the various stages and assembly groups (vehicle tracking card, audit optimization list, etc.).

Apply with your CV and your cover letter stating the above position to recruiting@bugatti.com
